

Preface. I have written this booklet about my father for my children, grandchildren, nephews, nieces and cousins who may someday want to know more about their ancestors. This booklet may help them when I am no longer available to ask. The material in this booklet was put together over a number of years with input from my parents (James Harding Jones and Myra Hume Jones), my brothers (James Jr. and Alfred Hume Jones) and several cousins: Nell Permenter Smith, Sarah Warren Alvarez and Steve Alvarez. I have not done research on genealogy but have relied on information given to me by other people.

The material in this booklet is available in electronic form. The text with pictures inserted is in Microsoft word files and also in pdf files. Separately the pictures are given in jpg files scanned into my Mac computer and also in Photoshop jpg or tiff files or both.

Comments, questions and additional input can be sent to me at the following address.
