

User's Manual

- This manual serves as a guide to assist users in accessing University-wide assessment data
- The data located on Tableau Server includes the following data:
 - CBASE
 - CLA
 - Enrollment
 - EPP
 - FSSE
 - Freshman Orientation
 - Graduate Student Exit Survey
 - Graduating Senior Survey
 - New Student Survey
 - NSSE
- If you need assistance in using Tableau Server or using this data in your PRISM plans, please contact Kim Presson at 8142 or <u>kpresson@jsu.edu</u>

Assessment

JSU has a Comprehensive System of Continuous Improvement (see following page) that incorporates strategic planning, institutional research, operational planning, Program Review and assessment of student learning. All of these pieces fit together to support informed decision making and quality improvements across every level of university operations.

JSU's Comprehensive System of Continuous Improvement

Academic Unit Assessment Plans

The sample assessment plan on the next page demonstrates four levels of measurement for a graduate program ensuring students have the best opportunities to be successful.

Level 1 refers to indirect measures of student learning that reflect student reaction or satisfaction. IDEA course evaluation items, such as "Overall, this is an excellent course," are examples of indirect measures.

Level 2 is direct measurement of student knowledge, concepts or skills learned. Departments using CBASE, or MFAT are measuring at Level 2. Soon, we'll have the Collegiate Learning Assessment as a Level 2 measure. Also, if you're using a rubric to rate demonstration of concepts or skills learned, you are measuring at Level 2. Level 3 refers to application of what was learned. We often use alumni or employer surveys for Level 3.

Level 3 must focus on changes in behavior or actions as a result of learning.

Level 4 focuses on impact in the program or organization as a result of learning. Also known as business impact measures, your department may focus on student retention, graduation rates, or professional certifications awarded. The first two examples focus on JSU or your department as the point of impact related to student success, while the last example focuses on the profession or perhaps state-wide impact of more certified professionals.

Take a look at your assessment plan and identify the levels of measurement. Also, make sure they are identified under your Student Learning Outcomes in PRISM.

Academic Unit Assessment Plans

Sample Graduate Program Assessment Plan

Level	Student Learning Outcome	Measures	Data Collection	Data	Timing	Responsibility
			Method	Sources		
1. Indirect	New students' average rating on all items	Average ratings on	New Graduate Student	Students	Beginning of	Program Director
	measuring satisfaction will be at least 3.5 out of 4.	satisfaction items	Survey		first semester	
	Students will indicate satisfaction with courses by rating course excellence as at least 4 out of 5.	Item on IDEA Course Evaluation System	IDEA Course Evaluation	Students	Every semester	Faculty
	Graduating students' average rating on all items measuring satisfaction will be at least 3.5 out of 4.	Average ratings on satisfaction items	Graduate Student Exit Survey	Students	During application for graduation	Office of Graduate Studies
2. Direct	Group comparisons will indicate statistical- ly significant differences between pre- and post-tests for graduating students.	Accuracy on pre- and post-tests	Pre-test and Post-test	Students	End of course work	Program Director
	Student responses to questions asked dur- ing Comprehensive Orals will average to at least 4 out of 5.	Average ratings on course knowledge discussion items	5-point rubric	Faculty on Orals Committee	End of course work	Faculty Chair for Orals
3. Applied	Graduates will indicate that they use or plan to use at least 85% of the knowledge and skills that they learned from the pro- gram in their work.	Report of use of knowledge and skills	Alumni Survey	Graduates	1-3 years after graduation	Program Director
	Employers will indicate that graduates use or plan to use at least 80% of the knowledge and skills taught in the program.	Report of use of knowledge and skills	Employer Survey	Employers	3 months after alumni survey	Program Director
4. Impact	At least 85% of students will be retained in the program each academic year.	Monitored retention of students through program	Retention data each semester	Institutional Research & Assessment	Annually	Faculty Member
	At least 80% of students will make satisfac- tory academic progress each academic year.	Monitored student progress to graduation	Student progress reports	Faculty Advisor Records	Annually	Faculty Member

Academic Unit Assessment Plans

Level 1 INDIRECT: Reaction, Satisfaction and Planned Action

•Was the program relevant to students?

- •Was the program important to students' success?
- •Did the program provide new information?
- •Do students intend to use what they learned?
- •Would students recommend it to others?

•Is there room for improvement with facilitation, materials, and the learning environment?

Level 2 DIRECT: Learning knowledge and skills

- •Do students know what they are supposed to do with what they learned?
- •Do students know how to apply what they learned?
- •Are students confident to apply what they learned?
- •Did students gain new knowledge, skills, change their attitude, increase awareness?

Level 3 APPLIED: Application and Implementation

- •How effectively are students applying what they learned?
- •How frequently are they applying what they learned?
- •If they are applying what they learned, what is supporting them?
- •If they are not applying what they learned, why not?

Level 4 IMPACT: Business or Professional Impact

•To what extent does student application of what they learned improve the measures the program wasintended to improve? (Retention, graduation, etc.)

•How did the program impact output, quality, cost, time, customer satisfaction, employee satisfaction, work habits?

•What were the consequences of students' application of knowledge and skills acquired during the program, process, intervention, change? (certification, licensure, etc.)

•How do we know it was the program that improved these measures?

Administrative Unit Assessment Plans

Assessment Plans for Administrative Units will vary with the type of service your unit provides and whether you have direct or indirect contact with students.

If you would like assistance developing or updating your Assessment Plans in PRISM, please contact Kim Presson at 8142 or kpresson@jsu.edu

Assessment/PRISM and SACSCOC

SACSCOC Comprehensive Standard 3.3.1:

The institution identifies expected outcomes, assesses the extent to which it achieves these outcomes, and provides evidence of improvement based on analysis of the results in each of the following areas:

- 3.3.1.1 educational programs, to include student learning outcomes
- **3.3.1.2** administrative support services
- **3.3.1.3** academic and student support services
- **3.3.1.4** research within its mission, if appropriate
- 3.3.1.5 community/public service within its mission, if appropriate

About PRISM/Compliance Assist Planning

- The Reporting and Planning processes are meant to be a collaborative activity within each unit.
- Units are encouraged to utilize small teams of individuals who work as a group in an effort to support continuous improvement within the unit by developing and reporting on goals, objectives and learning outcomes and reporting on Program Review recommendations.
- The Office of Institutional Effectiveness is available to meet with these groups to discuss continuous improvement and host a workshop to assist in the development of goals, objectives and learning outcomes.
- Goals, objectives, student learning outcomes and Program Review recommendations are continually tracked until it is determined that they have been accomplished or are no longer relevant.

Accessing Data

- 1. After filtering your data, you can Export it.
- 2. Click on the Export Icon and then click on the type of export you would like to use.

For PRISM it is recommended that you use the *image export* or a screen shot cropped from "Paint" and saved as a jpeg and then paste the image directly into PRISM and discuss the data as it relates to your outcome or objective.

department.
