Program Description: This approved sixty-one-hour Basic Tactical Operators Course (BTOC) will certify each student. The training days are long. This program is designed to address and reinforce basic tactical concepts, movement, entry and clearing. This course uses repetitive force on force scenarios. This course requires moderate to high levels of physical fitness. The learning objectives will fatigue the student. The student must be able to walk, run short distances, kneel, squat, bend, assume prone positions and recover to any position unassisted. Students should not attend that have bad/injured backs, heart conditions or any other significant physical limitations. All lesson plans, instructor guides, risk assessments, evaluation criteria and learning outcomes are available upon request for viewing. This course is conducted at a State of Alabama approved law enforcement academy as originally intended. This series of checks and balances are critical for course accreditation and validation. Anyone certified LEO may attend this course. Assignment to a team is not necessary.

Course Hours:

Hours in a day = 24	@ Five days	= 120 total possible hours
Meals @ 1 hour per meal	@ 3 meals a day x 5 days	= 15 total possible hours
Sleep @ 8 hours a night 10 PM to 6 AM	@ Five nights	= 40 total possible hours
<i>Course hours are accounted for per POI and task list matrix.</i>		55 hours subtracted from 120 possible hours = 65 training hours <i>(we are 4 hours less than this 65 possible hours)</i>

No shows: (Failure to notify of a cancellation): Students that register and fail to “un-register” by contacting us will be invoiced the full amount of tuition.

Certificate: Issued by the Northeast Alabama Law Enforcement Academy

Lodging: Tuition does **not** include lodging. Students must make their own arrangements.

Instructors: We use instructors from multiple agencies. We feel this contributes to the “not one way approach to training” - Certified Instructors assigned to coordinate and work with these programs have significant backgrounds in law enforcement, special tactics and weapons training.

Standards: Complete all training objectives. APOSTC Pistol Qualification; Pass performance on demand drills; Pass a 4-minute live fire performance exam, pass an exposure to OC (gas) environment without a gas mask, function as a member of a team and attend all training sessions. We train in all weather conditions except for lightning or other extremely hazardous conditions.

Firearms: The student should be able to load, unload, manipulate, handle and reload their firearm in a SAFE and CONTROLLED manner. The student should be familiar with their weapon systems and equipment and possess the basic knowledge to be able to disassemble their firearm for cleaning, maintenance, and problem solving. The student will learn the four weapon safety rules and abide by the rules at all times. We cannot afford an unsafe student in any class. Safety violations are dealt with swiftly.
