COLLEGE OF EDUCATION & PROFESSIONAL STUDIES

The Jacksonville State University, College of Education & Professional Studies (CEPS) proudly serves the citizens of northeast Alabama, the southeast and the nation through our traditional and online programs. The CEPS has over 17,600 proud alumni at the undergraduate and graduate level. Teachers and other school personnel prepare at the baccalaureate, master's, educational specialist and doctoral levels, develop an extensive knowledge and skill-based education appropriate for the level of certification. Developing initial and advanced educational candidates into effective, reflective, creative decision makers is the fundamental goal of all teacher preparation programs at the University. Each degree program is designed to provide a strong knowledge and skill base that will help to ensure a successful future.

There are three departments within the College:

- **Career Technical Education and Professional Studies** (formerly Family and Consumer Science)
- **Teacher Education** (formerly Curriculum & Instruction and Secondary Education)
- **Professional Counseling and Leadership** (formerly Counseling and Instructional Support)

CEPS envisions itself as a hub of teaching and learning that couples its long-standing tradition of producing highly qualified professionals with a spirit of collaboration and innovation to attract, prepare and retain candidates prepared for today's stakeholders and workplaces. Through the lens of continuous program improvement, candidate engagement, shared governance and strategic initiatives, we are laser focused on graduating individuals from programs of study that prepare them to make a positive impact, become effective leaders within a diverse community and make significant contributions that improve their fields.

In the summer of 2023, CEPS relocated from its long-time home at Ramona Woods Hall to the former Kitty Stone Elementary, which has been transformed into a state-of-the-art training center.
