

Philosophy of Jacksonville State University Fraternity & Sorority Life Regarding Academics

Fraternity and Sorority Life at Jacksonville State University is comprised of values-based organizations that are focused on enhancing the collegiate experience of members through brotherhood/sisterhood, academic enhancement, mutual respect, service, and social experiences. Scholarship is the foundation for our organizations and we are committed to helping our students achieve academic success.

Our Commitments:

- We will academically support members of fraternities and sororities. Members of fraternities and sororities are students first and membership in fraternities and sororities should enhance the academic experience.
- We will academically support each chapter. Jacksonville State University is committed to support each organization's academic goals and programs that contribute to the positive development of their members.
- We will offer resources to chapters and individuals to assist with their academic pursuits.
- We will encourage members to take individual responsibility for their academic pursuits.

Recommended High-Impact Academic Success Plan

Jacksonville State University has developed a recommended high impact academic success plan for our fraternities and sororities. Study Hall alone is no longer recommended as an academic success program. Chapters must utilize the recommended academic plan to gain access to monitored study hall through the Academic Center for Excellence. If a chapter believes their current academic plan is in line with the recommended plan, the Director of Academic Enhancement and/or the Assistant Dean of Students - Fraternity and Sorority Life will review it prior to the chapter being approved to utilize study hall through ACE. We believe that the high impact academic success plan will help our chapters achieve even greater academic achievements.
